Trainings/Internships

Coincent Organisation

ML AI Intern, 2024

- Contributed to the development and deployment of real-time ML models using transformer architectures.
- Enhanced predictive analytics tools by refining training pipelines and improving model accuracy.

Projects

Vision Transformer

Python, TensorFlow, Linux

Sep 2024 – Nov 2024

- Designed a scalable Vision Transformer model for image classification, achieving 92% accuracy despite computational constraints, leveraging distributed training on Linux clusters.
- Boosted inference speed by 35% via model pruning and quantization, optimizing for edge devices (aligned with Google's ML efficiency research).
- Skills: PyTorch/TensorFlow, Model Optimization, Parallel Computing

Google Landmark Detection

Python, OpenCV, TensorFlow

Nov 2023 – Jan 2024

- Developed a large-scale image recognition system mimicking Google Maps' landmark ID, achieving 87% accuracy via feature extraction optimizations (HOG + CNN).
- Accelerated processing by 50% using multiprocessing and efficient memory management, addressing scalability challenges.
- Skills: Computer Vision, Scalable Systems, API Design

Disaster Management Portal

React, Node.js, MongoDB

Jun 2024 – Aug 2024

- Engineered a distributed web platform for real-time resource tracking during disasters, reducing response latency by 40% through WebSocket-based notifications.
- Implemented sharding in MongoDB to handle 10K+ concurrent users, demonstrating scalability (ties to Google's distributed systems focus).
- Skills: Full-Stack Development, Scalability, Web Protocols

Achievements & Leadership

- Research Paper Accepted at IEEE GINOTECH 2025** Apr 2025
Title: "Deep Learning-Based Multimodal Fusion for Heart Rate and Stress Estimation using remote PPG."
- Volunteered for 7-day NSS Camp – handled donation and outreach activities Dec 2023
- National Level, Abacus Competition – "Champions of Champion" award Apr 2016

Certifications

- Generative AI for Everyone Feb 2024
Coursera [Certificate Link](#)
- Data Structures and Algorithms Jan 2024
Udemy [Certificate Link](#)
- Microsoft Certified: Azure Fundamentals Jul 2023
Credly [Certificate Link](#)

Technical Skills

Languages: C++, Python, Java
Web: HTML, CSS, JavaScript, React.js
Tools/Platforms: Git, VS Code, MongoDB, Node.js
Core: DSA, ML, System Design, Distributed Systems
OS: Unix/Linux (CLI proficient)

Education

Lovely Professional University, Punjab 2022 – Present
B.Tech in Computer Science CGPA: 7.45/10
Modern School, Faridabad 2020 – 2022
Class XII: 88%
Modern School, Faridabad 2020
Class X: 97.2%
